

**SHARING OF WIRELESS TELEPHONE SERVICES
FOR A PERSONAL WIRELESS TELEPHONE AND
A VEHICULAR WIRELESS TELEPHONE**

Abstract of the Invention

Sharing of wireless telephone services between a subscriber's personal wireless telephone and the subscriber's vehicular wireless telephone. The shared service may be a connectivity service, allowing the subscriber's personal wireless telephone to communicate directly with the subscriber's vehicular wireless telephone. Alternately, or additionally, the shared service may be one or more services provided for by the wireless service agreement plan of the subscriber's vehicular wireless telephone or the subscriber's personal wireless telephone.
